

WRANGELL DOWNTOWN REVITALIZATION CONCEPT PLAN

WRANGELL, ALASKA

CITY OF WRANGELL

Jones & Jones developed a plan to provide the City of Wrangell with an accessible and attractive waterfront downtown district for residents and cruise-ship visitors alike.

Our design team worked closely with the city and community to guide infrastructure improvements and to ensure that street improvements reinforced the city's character while improving traffic movement, parking and pedestrian circulation. The resulting plan gives visual form to many recommendations in Wrangell's Economic Enhancement Strategy, integrating various revitalization efforts currently underway into a unified vision.

FACTS

- Extensive public involvement
- Block-by-block recommendations for the central business district
- Streetscape design recommendations
- Architectural revitalization guidelines

BENEFITS

- Enhanced city character
- Improved traffic movement, parking, and pedestrian circulation
- Economic revitalization
